NEXT GENERATION BEDLINERS

Warren Beaty

“I’ll Never own another truck without one...”

BedRug is the most unique and innovative truck bed liner on the market today, because it’s unlike any other bed liner. Don’t let BedRug’s plush appearance fool you. BedRug is **NOT** carpet, but rather a ridiculously tough 100% polypropylene compound that acts like plastic armor for your truck’s bed. We’ve even got BedRug liners for Jeeps. So go ahead and load up your worst cargo, anything from cinder blocks to gravel, and BedRug will handle it and come back for more. Pack up your camping gear or a load of antiques and you’ll find yourself saying, “I’ll never own another truck without a BedRug.”
